

We help students turn their academic goals into self-directed action

Tailored programs for students and teachers focused on student development and college readiness. **We provide interactive workshops, individualized feedback, and educator professional development that help students:**

- **Set meaningful academic goals and work toward them**
Determine academic and life goals that connect with personal priorities, define actionable steps, and track progress.
- **Manage time and attention and self-regulate learning**
Build workable study schedules, choose strategies for effective learning, and adjust plans as demands change.
- **Navigate setbacks and follow through**
Develop social-emotional skills to persevere, communicate effectively, seek support, and use feedback to determine next steps.

Discuss your student and educator priorities

Schedule a conversation about your student and educator priorities and challenges, and how we can help.
